☞ REMOVAL.

United States and Foreign PATENT AGENCY.

SAMUEL COOPER, Late Principal Examiner of Patents in the United States Patent Office, at Washington, HAS REMOVED HIS OFFICE TO WEBSTER BANK BUILDING, 13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured through prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 23, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with the office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

WORLD'S BLESSING

RHEUMATIC, NEURALGIC & SPINAL BALM.—*A Miracle of the Nineteenth Century*.—A son of Mr. L. Colbroth has been suffering the last two or three weeks with a severe case of rheumatism—so much so that he was prostrated, and was unable to move himself in bed; and his friends considered him dangerously sick. Dr. J. L. N. Gould, of Boston, who has discovered a remedy for Rheumatism, Neuralgia, and Spinal Disease, arrived in town on Saturday, and has taken rooms at the Elm House. The Doctor was called on to treat his case, and in one hour from the time he applied his Rheumatic Balm he was able to leave his bed and walk his room, and is now free from rheumatism. This is, indeed, a wonderful discovery. [From the Eastern Argus, Nov. 24 '57.

THE CELEBRATED INDIAN DOCTOR JOSEPH SAUKABASIN,

HAVING availed himself of the medical knowledge of the tribes who composed the original inhabitants of this country, and having by upwards of twenty years experience gained a knowledge of the most perfect combination of the vegetable substances which are the growth and natural remedy for the diseases of the climate, offers his services in all disorders. He has in his possession a great number of certificates testifying to the powerful, beneficial and often sudden effects of his medicines.

From a very large number of certificates he selects the following:

Brewer, July 8, 1848.

To whom it may concern.—This will certify that I had a very severe attack of the Rheumatism in my hip. I tried various means to cure it, but it grew worse and worse for about three months; when I applied to Dr. Joseph Saukabasin, one of the Penobscot tribe of Indians, who cured me entirely and in a very short time, and I feel it due to him and to the community to recommend him as a safe and skilful physician.

BENJAMIN SNOW.

I hereby certify that the last year, which was 1846, while laboring under a severe attack of the Rheumatism, I applied to Dr Joseph Saukabasin, who applied me with a plaster for the diseased part, say the back and kidneys, which helped me essentially. JAMES MEAGHER.

Camden, Sept. 1, 1846.

This will certify that I was afflicted for over thirty years with a Scrofulous Humor in my leg, and I applied to four or five physicians and got no relief, until I fell in with Joseph Saukabasin, and he gave me one bottle of medicine and cured me so it has troubled me none since. My daughter Hannah was afflicted with a cough, and spitting of blood, and by taking his medicine was cured.

SYLVANUS COOMBS.

Camden, August 15, 1852.

I hereby certify that I have been attacked with a lame back, by the kidneys, for the last two years, and I applied to Dr. Joseph Saukabasin, and he furnished me with a plaster which relieved me in one hour after I applied it. I received the most benefit from it of any medicine that I have ever applied. CORNELIUS THOMAS.

Camden, Sept. 1, 1846.

☞ Dr. S. has located himself, for the present, in Brewer, at the Hayes place, above the bridge, where he may be consulted.

☞ *Beware of impostors*, and be sure to call or send to Joseph Saukabasin.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skilful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—25 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York. july29

Hancock Bank.

THE undersigned having been appointed Receivers to the Hancock Bank, of Ellsworth, in the County of Hancock, and State of Maine, by the Hon. Jonas Cutting, one of the Justices of the Supreme Judicial Court, and having been duly qualified as such, hereby give public notice that eight months from the 25th day of November last, will be allowed to the creditors and all persons interested, to present their claims for allowance; and the Banking Room of said Bank will be open for that purpose every Wednesday and Saturday, from 10 to 12 o'clock A. M. and from 1 to 3 o'clock P. M., until notice of a change shall be advertised. S. WATERHOUSE, HITCH MACOMBER, ARNO WISWELL.

Ellsworth, Dec. 3, 1857 3tawtJy1

To the Honorable Senate and House of Representatives, in Legislature assembled:

THE undersigned, inhabitants of the town of Greenfield and Township No. 1, in the County of Hancock, respectfully represent, that they suffer great inconvenience by reason of the distance they are compelled to travel to do all their County business: they cannot by any practicable road have access to their shire town without traveling forty miles in the County of Penobscot, the usually travelled road for that purpose, passing through the City of Bangor. They further represent, that there are no incorporated towns or organized plantations adjoining their town on the south or on the east, and that the nature of the country is such, that it will be many years before there will be any highways leading from their town to Ellsworth, more direct than there is now existing. They therefore pray that their said town may be set off from the County of Hancock and annexed to the County of Penobscot.

STATE OF MAINE.

IN SENATE Jan. 29, 1858.

On the Petition aforesaid, *Ordered*—That the Petitioners cause an attested copy of the Petition with this order thereon, to be inserted two weeks successively in the Ellsworth American, a weekly paper printed at Ellsworth, in the County of Hancock, and twelve days in the Bangor Daily Whig and Courier, a daily paper printed at Bangor, in the County of Penobscot, the last insertion, respectively, to be six days at least before the twenty fifth day of February next, that all persons interested may then appear and shew cause, (if any they have,) why the prayer of said Petition should not be granted. Also to shew cause why township No. 2, North Division, in said County of Hancock, should not be annexed to Penobscot, if such is shown to be the wish of its inhabitants.

Read and accepted. Sent down for concurrence. JOSEPH B. HALL, Secretary.

In House of Representatives, Jan. 30, 1858. Read and concurred. G. W. WILCOX, Clerk.

A true copy—Attest: JOSEPH B. HALL, Secretary of the Senate.

American & Foreign Patents,

R. H. EDDY, Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under Act of 1837,)

76 State Street, opposite Kilby-st., BOSTON,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OF ICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor, for procuring patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE, Late Commissioner of Patents.

[From the present Commissioner.]

"AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse." CHARLES MASON, Com'r of Patents.

A New and Valuable Discovery!

TIME AND MONEY SAVED.

The Washer-Women's Friend and Helper!!

HALGATE'S CELEBRATED LAUNDRESS' SECRET!

The Quickest, Cheapest, Easiest and Pleasantest mode of Cleansing Clothes yet discovered. No Boiling, Pounding or Rubbing required, but all performed in simple Warm Water.

THE "LAUNDRESS' SECRET" has been thoroughly tested by the most experienced Laundresses, and has not failed in a single instance to give entire satisfaction. Its tendency is to Loosen the adhesive quality of the dirt without injury to the fabric; it gives the garments a beautiful, white appearance, and clothes that generally fade when washed by the ordinary soaps, compounds, etc, by this process, are warranted to remain firm; the color is not changed in the least; the wear and tear of clothing that must necessarily attend washings of the old process, is entirely removed and not one-fourth the labor is required to do the washing of the family. Unlike the ordinary process, the washing is performed in simple warm water, and any kind of fabric can be washed with perfect safety. The washing that now takes half a day to perform, by our process can be done in one hour.

Don't be without it a Single Day.

Will you go on with the old process doing your washing in half a day, scrubbing and rubbing at the wash board, while the means of cleansing your clothes much cheaper, quicker and easier, is at hand? Pollering a chance to the wise is sufficient, and leaving the appearance of your clothing a matter of choice, in your own hands, we respectfully solicit a fair trial of our preparation.

This preparation has recently been used by some 75 families in the towns of Oldtown and Orono, who certify that it is a worthy preparation;—that the *boiling is entirely dispensed with and one half the rubbing*, and they cordially recommend it to families and laundresses.

IMPORTANT DISCOVERY!

CONSUMPTION CURABLE

BY THE USE OF

Fousel's Pabulum Vitæ.

This VEGETABLE PRODUCTION has proved itself to be the most remarkable medicinal preparation ever discovered, for the effectual cure of

Pulmonary Consumption,

and also of Coughs, Colds, Soreness of the Chest, Bronchial Irritation, and all other affections of the air-passages, which have a tendency to produce that FEARFUL MALADY in those predisposed.

This wonderful discovery, from its volatile nature, gives vapor freely and consequently acts DIRECTLY upon the Lungs and Air Passages, arrests the development of tubercles in the lungs, and in their softening process causes the matter to be expectorated without difficulty; it effectually heals the ulcerated cavity; it quiets the cough, subdues the night sweats, the hectic fever and the chills, and restores the healthy functions to all the organs of the body. A trial of one bottle will speedily convince the most skeptical of its astonishing efficacy, and its superiority to all other specifics.

CERTIFICATE OF DR. A. A. HAYES in reference to the unequalled virtues of this great discovery:

"This preparation by chemical analysis was proved to be free from Opium or any of its compounds, nor were any of the Alkaloids present.—It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device on which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration."

Respectfully, (Signed,) A. A. HAYES, State Assayer.

INVESTIGATION STIFLED. In the Kansas investigation Committee appointed by Speaker Orr every motion of the Anti Lecompton members to obtain the information called for by the House, appears thus far to have been voted down by the administration majority of one. The border ruffian party want no more light on this question. The Northern National democrats prefer to shut their eyes and go it blind. The President has given the history of the Kansas elections in such a way as to ignore all the frauds, and his party in Congress don't want any further official information. This denial of investigation is all of a piece with the frauds and violence perpetrated at every step of the Kansas usurpation. The action of the committee is even more villainous than a mere denial of investigation. The administration majority votes to procure just such information as suits the purposes of the Lecomptonites, and *refuses* to summon witnesses who could testify to the frauds.

FRAUD AND FLIGHT IN KANSAS.—Letters from Kansas report that Gen L. A. McLean, chief clerk of John Calhoun, the Register of the Territory, has fled on account of the exposure of his fraud and perjury in the matter of election returns. McLean swore before the Board of Commissioners appointed by the Territorial Legislature, that the official returns of the votes had been by him delivered to a man sent for them by Mr Calhoun. This statement was false as the returns were found concealed in a box under a pile of wood on McLean's premises. Gov Denver and Messrs. Babcock and Deitzler, testified that the returns found in the box were those examined by them on the 14th of January last. Some of the returns have been altered since they were officially examined. The returns from Delaware Crossing, in which J D Henderson was concerned, were found to be changed from 3 (as sworn by the judges) to 371.

McLean and his co operators have fled and at the last accounts the Territorial officers were after them.

RECENT CALHOUN POCKETING THE RETURNS. Can anything be more shameful, says the Providence Journal, can anything be a broader caricature upon free government than an officer holding the votes of a people in his hands and offering to count in this candidate or that, as the conditions of political arrangements? This Calhoun regards the votes given by the people of Kansas as his private property, and he promises the wavering members of Congress that if they will vote for the admission of Kansas, under the Lecompton constitution, he will count in the Free State men and that if they do not, and Kansas is admitted under that constitution, a majority of them he will count in the pro slavery men! And the newspapers comment upon it and discuss the probability of his keeping his word, half forgetting the outrage contained in the proposition itself!!

FALL OF RENT IN NEW YORK. A correspondent of the Boston Courier says that on every store of the better class that has now to be rented, there will be a reduction of one-third in the annual rent. One store that for several years has let at $16 000 was rented a fortnight ago for $11,500. From the Bowling Green at the bottom of Broadway, up to Fulton street, full one half I think it would be quite safe to say two thirds of the stores have upon them notices 'To let,' which was very far from being the case last year at this time. The higher class of dwelling houses will doubtless suffer similar depreciation.

The Richmond South of Feb 11, after alluding to the fact that Hon Edward Everett is to be presented with Gen Washington's cane at Richmond, on the 22d inst. endeavors to show that he is unworthy the distinguished compliment, on account of his expression of admiration of the public and private character of Hon Charles Sumner, about the time he was brutally assaulted in the U S Senate chamber.

A PLAN FOR A SUBMARINE TUNNEL TO EAST BOSTON. A Mr T... Taggart proposes to connect the city proper with East Boston by means of a submarine arch or tunnel under the channel. The entire cost excepting the real estate at each end and the right of way, he estimates, allowing the distance to be three thousand feet, at $316 160, of which the iron will take $144 400, labor $78 000 &c.

It is stated, says the New York Journal of Commerce, that the number of persons at this time receiving alms in that city, is more than one sixth of the entire population. This number is entirely supported by two of the remaining five sixths, the other three barely supporting themselves.

GREAT DECLINE IN IMPORTS.—The whole value of the imports here at Boston during the last week was $253 271. The amount in the corresponding week last year was $1 304 610. The Lawyers of the Olden Time.

[The interesting biographical sketches in the following article, are contributed by one of the veteran lawyers of our city, who has been widely known, and whose acquaintance with the eminent men of his day enables him to speak accurately both of their earlier and later history. It is not improbable that he may continue his reminiscences of the bar in future numbers.]

Messrs Wheeler & Lynde

GENTLEMEN—Your paper recently contained some remarks relative to the old lawyers of Norombega. This has led to enquiries concerning the lawyers who originated in the territory of Maine, or immigrated from the neighboring State of New Hampshire.

The earliest, or among the earliest of them, may be named Gen John Sullivan and Gov James Sullivan. These gentlemen were sons of Master Sullivan, a distinguished school teacher and citizen of Berwick (Me) John, the eldest son, having profited in study under the guidance of paternal affection and assistance, so much as to prepare him for study of the law went to Portsmouth, N H, and there acquired the rudiments of his profession. After admission to practice in the Courts of that *late* Province he established himself in the neighboring town of Durham, and very soon became eminent in his profession, beloved as a citizen, and was honored by the patriots of that region with high military command. He loved his profession much, but he loved the liberties of his country more. Therefore, he subordinated the emoluments and dignities of his legal eminence, to employment as a major general in the military service of his country. At the close of the revolutionary war he returned to his peaceful home and resumed the duties of his much loved profession. But these pleasures he was not permitted long to enjoy. The grateful and attached people of his State soon called him to the office of Governor, the duties of which he ably performed. He died greatly respected and deeply mourned.

Hon James Sullivan held the office of a Justice of the Supreme Judicial Court of the Commonwealth of Massachusetts, with honor to himself and usefulness to parties in the Court. He has never been surpassed for ability and adaptation to the duties of Attorney General, which he discharged for a series of years. Through his whole professional life he ranked in the first class of Advocates and Jurists. Eminent abilities, industry and probity called him also to the dignity of Governor of the same Commonwealth.

Contemporaneously with these brothers another son of Maine, no less illustrious than themselves appeared in the person of Hon Rufus King. At the very commencement of his professional life he broke upon the public eye with so great splendor as excited unmixed admiration and respect. He had scarcely completed his professional pupilage under the guidance and instruction of Hon Theophilus Parsons when some of his admiring friends engaged his services, notwithstanding his inexperience, as a counsellor and advocate in the management and argument of some causes of intricacy and importance before eminent legal tribunals. His success was fully equal to the hopes and expectations of his employers. Mr King soon established himself permanently in the city of New York. His vast intellectual powers developed in elocutionary excellence and stores of learning were soon called into requisition for the more extended benefit of his country. He was elected by his adopted State to fill the office of delegate to Congress of the United States, where his power was immediately felt and acknowledged. Subsequently Mr King was appointed by General Washington to the office of Minister to the Court of St. James the duties of which office he discharged in the most satisfactory and honorable manner. And lastly, having returned to his own State, he was chosen to represent its sovereignty in the Senate of the U S.—Here his influence was felt to be as great as any member of that body. His death which occurred in A. D 1824, was deeply felt and lamented through the length and breadth of his whole country.

It may be proper in this connection, to mention that a brother of Mr R. King viz Gen Cyrus King, formerly of Saco was ... bably as well read a lawyer as his ... brother though not so much distinguished ... quence, yet possessing ... guished for eloquence ... claims on that department ... highly respectable ... also much ... department. Gen King was right political ... elected as an intelligent and upright ... Congress from the district in which he lived ... discharged his duties with ability and integrity at a period of great perplexity and agitation, viz in time of the war with England in 1812.

The galaxy constituted by the members of that eminent family is more complete by the fact that Gov William King was brother to the fore-named Hon Rufus King and Gen Cyrus King. The just and eminently salutary principles of betterment laws received their *first* legal application to the rights of *first settlers* on lands to which they had not perfect titles, but to which they had given much value, through the long protracted instrumentality and indomitable energy of Gov King, when he was Senator in the Legislature of Massachusetts. This gentleman, though not professionally a lawyer, well understood the principles of law and made practical use of them through his protracted and highly honorable life.

IMPORTANT RAILROAD SUIT.—*Passengers must have seats.* A gentleman named Poland has lately sued the Hudson River Railroad Company for ejecting him from the cars, under the following circumstances. Mr P resides at Kingston. He got on board defendant's car at New York, for the purpose of coming to Boston. He refused to pay his fare because the conductor would not provide him with a seat. For this refusal the conductor put Mr Poland off the cars in the vicinity of Manhattanville. The jury took all the facts into consideration, and returned a verdict of $50 for plaintiff.—This is rather an important case. According to the ruling of the Judge, conductors must be able to accommodate passengers with seats or they cannot recover fare.

LOCAL AND MAINE NEWS.

A COLONY IN THE WOODS.—The Kennebec Journal related a short time ago, the following facts, which show what may be done by industrious poor men, who find it difficult to support their families in places where the artificial wants of society are numerous.

About seven years since a poor hard working man who found it difficult to support his increasing family, resolved, as a last resort, to try his skill in selecting for himself a home in the wilderness. He proceeded to the head of Chesuncook Lake, where he found a beautiful slope of land, and proceeded at once to make a clearing and build a log house. Occasionally others saw what he was doing, and commenced making settlements in that vicinity, the land all belonging to the State.

A gentleman in this city not long since visited this settlement, thus cut off as it were, from the world, and found there fourteen families upon good farms, in a beautiful country with a fertile soil, and many of the comforts of life, and among them all about thirty children. He states that these settlers are, for the most part, intelligent Americans of sober life and good conversation—industrious in their habits and economical in their living. The first settler cut last season fifty tons of hay, owns four cows, a pair of horses, a flock of sheep and young cattle, has a barn forty feet square, built of boards sawed by hand, and when called upon by a gentleman with whom he was acquainted, stated that he had some money stowed away which he thought ought to be earning something, and asked him if he would take it and pay the interest. On bringing forward the money, it was found to amount to six hundred dollars.

The nearest road is fifty miles distant, and the only outlet this settlement has is by the waters of the Lake, or by winter logging roads. The soil is of excellent quality, and if the country can be fairly opened up by roads the stream of population and civilization will steadily flow into that section of the State and cause the wilderness to bud and blossom as the rose.

Supreme Judicial Court—Criminal Term.

Appleton J., presiding

February 18

The verdict in the case of the State vs Samuel Carson, for writing threatening letters, was guilty.

State vs Samuel Carson, for larceny of sheep skins. The prisoner had confessed his guilt and had been used by the State to convict accomplices before the Police Court. He was committed to jail on failing to recognize for his appearance at his Court as a witness. His accomplices were bound over, and Carson, refusing to give testimony against them before the Grand Jury, was indicted and convicted himself principally by the same testimony.—The Court ruled, that if he made his confession and gave his testimony under any inducement held out to him that he should be protected as a State's witness, and afterwards refused to give the testimony, that he would be entitled to no protection and that his confession would be admissible against him.—Verdict guilty. C S Crosby for defence.

There being no other cases ready for trial, the Court dismissed the first jury for the term, and the second jury till Monday next, when the arson case will probably be taken up, and some minor appealed cases. There will not be much more for the jury.

County Attorney Hillard has been very successful with his indictments, convicting the prisoners with but two exceptions, and in one of these there was an acquittal on the ground of insanity of the prisoner.

The second indictment against David Inman of Oldtown for breaking and entering the store of Homer & Stowe, will not be tried this term, but be continued and held *in terrorem* over the prisoner, who has been convicted of one burglary.

POLICE COURT *Feb 17th* John Welch, Jr for an assault upon John Dowd, was fined $10 and cost $7,39 making $17 39; appealed and recognized for his appearance at the next criminal term of the S J Court.

18th John Welch, John Welch Jr, and Stephen Welch, severally $1 $2, and $3 and cost, $8 21, making $12 21 for an assault upon Daniel Hearlihy. They appealed as above.

Elijah Hall, alias Tarbox, was ... convicted of being a common beggar, and ... sent to the House of Correction for 30 days.

A VILLAINOUS FRAUD.—The Portland Advertiser says

Last week we saw in the cars between Bangor and Portland a lad about fifteen years of age, who stated that he shipped in June last at Portsmouth N H, on board the brig Lion, owned in the British Provinces. He remained on board of her till last month when he was paid off and discharged, receiving, as the principal part of his pay, what was represented to him to be a fifty dollar bill on one of our U S banks. He worked from there most of the way to the State House, and did not show this fifty dollar bill until he was within our State. It proves, however, to be an advertising note of 'Lyon's Katharion.'

New Publications.

GODEY'S LADY'S BOOK for March has been some days upon our table. We have not room to notice the contents in detail, but it is only justice to the publisher to say that in every department it displays that ability of design and perfection of execution which has given this magazine such unequalled success. The engravings in this number are of the very best description. The frontispiece is a faithful copy of that superb picture "The Mother's Blessing." The engravings in the Lady's Book are not only in the highest style of the art, but the *printing* of them, especially of the wood engravings is done in a most superior manner. It is stated that the increase of the edition of the Lady's Book is 10 000 for the present month.

L A Godey, Publisher, Philadelphia.

THE LADY'S HOME MAGAZINE—edited by T S Arthur and Virginia F Townsend, Philadelphia, is well known as one of the most popular magazines in the country. It is edited with great talent and the tone of its articles is of an elevated and moral character. The tales and sketches are of a very attractive description, and at the same time are practical and useful in their influence. The March number is out, and presents an excellent variety of matter. The engravings (including fashion plates and embroidery patterns) are very beautiful. The price of this magazine is $2 for a single copy for a year, four copies for $5.

We regard the opinion that with Kansas, Oregon and Minnesota admitted as free States into the Union, the question of a free State preponderance will be forever settled, as a crude and unfounded judgment. It is true that, if they should be now admitted, the free States would have a majority of three or four in the Confederacy. But when this is done, and Washington shall become a State, and a State shall be made on the western boundary of Minnesota, from what quarter are future free States to come? The idea is delusive that because we may get a momentary preponderance, that preponderance is likely to be perpetual. We beg our over sanguine critics to remember that, while we are limited on our Northern side, the contemplated additions of territory upon our Southern border are quite boundless, and that slavery is to be the rule in all. At the present moment we have Cuba and Central America on hand, while another slice of Mexico awaits only the purchasing. Aside from these countries, whose annexation must be pronounced imminent, are we not constantly told that the process of absorption by us toward the South is going on, and that it will be extended indefinitely, and is there not good reason for the belief? Besides, is not New Mexico ripening into a slave State? Is not the new Territory of Arizona just springing into being, to form yet another, and does not the right exist by compact for the carving of three additional slave States from the territory of Texas? Upon what ground of sober judgment then, is it so confidently announced that the battle of slavery is already fought and won, and that a future unequivocal preponderance is to remain with the free States? We fear there is no more solid basis for the conclusion than an over sanguine expectation, growing out of rosy views of the future, for which no warrant is to be found either in the history of the past or in the present state of the country.—*N Y Tribune.*

The people of Oregon having determined against slavery, it is but characteristic of the 'National' Democracy to keep that State out as long as possible—just as they are doing with Minnesota, and as they insist upon doing with Kansas unless she will take a pro slavery constitution. Accordingly we see it stated that the Senate Committee on Territories will probably report adversely to the present admission of Oregon.

LEGISLATURE OF MAINE.

TUESDAY, Feb 16

SENATE. *Passed to be engrossed*—Bill to increase the capital stock of the City Bank of Biddeford (adding $25 000).

Mr Goddard presented the petition of Geo M Gage and 113 others, teachers in Cumberland county, in favor of a Normal School. Referred.

Mr Wasson presented the petition of John ... and 110 others of Franklin, in favor of an Insolvent Law. Referred.

HOUSE. *Petitions presented*—Of Richmond Bank for reduction of capital stock, of David Bronson and 14 other members of the bar for Sagadahoc county, to repeal so much of the 18th section of chapter 82 of the Revised Statutes as relates to specification of defence or to amend it so as to cure existing evils under its rule; of Elias H Witham and others asking that so much of chapter 113 of the Revised Statutes be repealed as permits debtors arrested on execution to disclose before giving bond.

Passed to be enacted—Bill to incorporate the Maine Universalist Missionary Society, bill additional to chapter 77 of the Revised Statutes relating to Supreme Judicial Courts.

MAGNIFICENT SUGAR ESTATE. The New Orleans Delta states that the Houmas plantation, near Donaldsville, lately owned by Col. John S Preston, has been sold to John Burnside, Esq, head of the house of J Burnside & Co of New Orleans, for one million of dollars.—Mr Burnside intends to retire to his new estate at the close of the next business year, to enjoy the princely fortune he possesses. The estate has a frontage of thirty five acres on the Mississippi, contains twelve thousand acres of the finest quality of cultivated land, and possesses a working force of five hundred and fifty slaves. The Delta terms it "the finest property possessed by any single proprietor in America."

PRESIDENT PIERCE AT MADEIRA. A letter dated United States steamer Powhatan, at Funchal Jan 4th, says —

"I reached here after an agreeable passage of 16 days, and am quite well. Mrs Pierce endured the voyage bravely, though for a time sea sick. She is now evidently improving.—The General is also in fine health and spirits. They will probably go to Spain and Italy in the spring, and not return under a year."

An Episcopal clergyman, who rather loves a joke, was engaged to read the service for a brother minister and was hurrying to church, a little belated on Sunday morning. A friend, struck by his uncommon speed, inquired, "Sir, why so fast?" "In order that he who runs may read."

"A borrowed horse and your own spurs make short miles," is a Danish rendering of a rather universal practice.

Oxygenated Bitters in Europe.

From Rev. L. Doolittle, a highly respectable Clergyman. PARIS November 1 1851.

DEAR SIR—About two years since I made use of a few bottles of your *Oxygenated Bitters* for a stomach complaint which was at that time relieved. Since my stay in England and France I have found my old enemy (irritability of the stomach) returning again. I have not found any prescription to afford me relief and I made inquiries in London for your *Oxygenated Bitters* but could not find any. I write now to beg you will do me the favor to send by the earliest steamer to Havre half a dozen bottles care of Livingston Wells & Co 8 Place de la Bourse Paris.

An old friend of mine in England Capt. Jackson of the British Army I found on my arrival suffering from the ... result of dyspepsia. ... I should like to have the ... try the ... one.

I beg to observe as I am not aware that my name is known to you that I have been the resident clergyman for some twenty three years in Sherbrooke and Lennoxville Canada East to which charge I hope to be able to return in the spring.

I remain dear sir your obedient servant L DOOLITTLE

FLOUR, Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding and the Flour is double cool'd before packing. The whole contents of the Wheat are transported to Bangor by Railroad in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load 100 bbls will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags consequently not injured by packing 196 lbs in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels as is the case with nearly all the wheat manufactured in the large establishments for the large markets. TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

CONGRESSIONAL.

WASHINGTON, 18th.

SENATE.—Mr. Green from the Committee on Territories reported a bill for the admission of Kansas, submitting therewith a long report which was not read.

Messrs. Douglas and Collamer severally presented minority reports.

The reports were all ordered to be referred.

Mr. Green gave notice that he should call up the matter at an early day.

The army bill was taken up, and the 4th section of the original bill stricken out by a vote of 24 to 22.

Mr. Wilson offered an amendment, to the effect that a reduction at the end of two years, shall not operate on any officer at the date of the approval of the act which was adopted.

Mr. Iverson of Ga, contended that the bill reported by the military committee was more accordant with the views of the administration than Mr Johnson's substitute. Volunteers were always more expensive and less reliable than regular troops.

The Tenn. Senators arguments seemed to defend polygamy. If these volunteers entertained similar opinions, they would be the last men to send to Utah. Instead of whipping the Mormons they would be more likely to join them, especially, if Brigham Young gave them half a dozen wives a piece.

Mr. Hamlin of Me., submitted a motion that in no case shall the force created by this act continue in service over two years, which was agreed to.

A desultory discussion ensued upon the comparative merits of the different substitutes.

The Senate was but thinly attended.

Mr. Johnson did not justify polygamy, but merely drew a comparison, showing the inconsistency of entertaining an agent of the Turkish government which legalized polygamy.

Mr. Seward of N. Y., explained the views he took on the bill, which had been criticised.

Mr. Brown of Miss. said if volunteers were sent to Utah, war would follow. Brigham Young would not fight unless he was forced to do so. Adjourned.

HOUSE.—Mr. Henry Winter Davis, made a personal explanation. He read extracts from a speech of his colleague, Mr. Bowie, containing strong language against the American party for its conduct during the Baltimore election, representing him as saying, looking towards Mr. Davis—"You, sir, have a day of reckoning. I will put you under my foot.—You shall not have an hour," &c. Mr. Davis wished to know whether his colleague applied such language to him?

Mr. Bowie replied, that when he thus spoke he personified the American party, and did not mean to apply his remark personally to Mr. Davis, but to the party which struck down the Democratic party of Baltimore by force and bloodshed. He repeated, a day of reckoning would come; there would be war of the people against such wrongs. He did not say how far Mr. Davis counselled such wrongs; but if he did he should take the responsibility. He had not personally any unkindness for his colleague, and felt grieved to think he had wounded him. He would tell the House and the nation that he believed in his inmost soul that such Know Nothingism would lead to bloodshed and revolution, and would counsel those trampled upon to resistance.

Mr. Davis of Md, replied—As to the opinions of colleague touching the American party, the House is not the proper place for discussing them. He merely rose to enquire whether the language of Mr. Bowie was applied personally to him. His colleague's response was satisfactory.

The House then went into committee of the whole on the Indian Appropriation Bill.

Mr. Shorter of Alabama, spoke on the Kansas question, and said that at the Southern States were now united on the Georgia platform, and were pledged to resist, even to a dissolution of the Union, the refusal of Congress to admit Kansas, because of the existence of slavery there. He cared not whether this was Constitutional, or revolutionary, or right, the South were prepared to defend it. He contended that the Lecompton Constitution was legally adopted, and was republican in form. Congress has not the power to remand Kansas to a Territorial condition, she being an independent sovereign State by consent of Congress outside of the Union.

Mr. Shorter expressed surprise that Mr. Douglas had abandoned the principles of the Nebraska Bill, fleeing before the first gun fired, and, like the Parthian, throwing poisoned arrows before him. He did not want the votes of Mr Douglas and his followers, and if they did not reflect Northern public opinion, the sooner the South knew this the better. He contended that it was never designed to make Kansas a slave State. The five Governors sent there were all Free soilers, including the traitor Walker. It had been said that the admission of Kansas would light the flames of civil war. If so, let it come. Let the flames rise even heaven high. But he thought the refusal to admit her would, rather engender civil war; referring the question back to the people, who would inevitably invite this result. If the South remain in the Union on terms of inequality with the North, under such circumstances, the Southerners would not be a brave and gallant people; but mere captives chained to the victorious car of the North. He would rather be a vassal of Old then New England. The word "compromise" was offensive to him. He would make it a penal offence for a Southerner to use it. It was suggestive to his mind of surrender and base submission. It sounded, in the words of McDuffie, like the bugle blast of a robber band.

Mr. Shorter continued at some length in a similar strain, closing as follows:—"The religion of Plymouth Rock is intolerance, bigotry and fanaticism. Northern clergymen violated the seventh commandment after evening lectures, and when their crimes were exposed, were courted and feted by the fair sex."

Mr. Zollicoffer of Tenn., made a personal explanation in reference to Mr Hatch's speech of yesterday.

He said that Mr. Hatch had seen proper to indulge in personal remarks prejudicial to himself and other members, and had also read certain obligations purporting to belong to the American party.

Mr. Z was a member of that party, but those obligations differed in letter and spirit from those he took in Tennessee. Mr. Hatch has denounced the obligations as treasonable and unconstitutional. In doing so he had uttered a falsehood with which he [Zollicoffer] now branded him, and took the responsibility.

Mr. Hatch of N. Y. was not present.

Mr Tompkins of Ohio, made a speech in opposition to the Lecompton Constitution.

He would not enquire whether it met the sanction of the people. The time, was when he would have felt justified in voting for the admission of a slave state South of 36 30.—That was before the repeal of the Missouri compromise. That repeal had removed all national obligations, leaving him free, to vote as his conscience dictated.

Mr. Clemens, of Va, argued the legality of the Lecompton Constitution, contending that it was not necessary to submit it to the approval of the people. The President had performed his duty fearlessly and manfully.

Mr. Burroughs of N. Y. got the floor, and the House adjourned.

NEW YORK, 18.

The impression seems to be quite general here that the Baltic has been leased at Liverpool by the Browns, and did not leave on her regular day.

From Washington.

WASHINGTON, Feb. 18.

The report made to-day by Mr. Green, from the Senate Committee on Territories, recites at length the events that have occurred in Kansas, and asserts that the majority of the people may simply assemble in a mass meeting, and make a Constitution, or they may elect representatives to make one for them, or elect representatives to draft one to be submitted to them for their approval or rejection. In calling the convention for this case, it was conceded to have been strictly legal, as was also the election of delegates. In conclusion, the Committee say that the Abolitionists in Kansas had thus far sought power by methods unknown to the law, and by acts of violence, and not through the peaceful agency of the ballot box, claiming to have a majority of votes in the Territory, and therefore able to elect a Legislature and Convention, yet they ask Congress to wrongfully do for them what they may at legal times and legal places rightfully do for themselves. This conduct is so exceedingly unreasonable as to force the conviction upon the mind that they are conscious of being in a powerless minority, and only expect to be able to compass their unwarrantable ends by departing from the general way of peace and quiet. If your Committee are not greatly mistaken, these reckless men misjudge the American people, and will be required to seek peaceful methods for redress of all their grievances, whether they be real or imaginary.

The bill recites that the people of Kansas have framed for themselves a Constitution and State government Republican in form, and that the Lecompton convention has in their name and behalf asked Congress to admit her. Therefore it is declared that Kansas be admitted into the Union on an equal footing with the original States in all respects whatever.

The bill also prescribes the boundaries, regulates the grants of public lands and gives Kansas one Representative in the House of Representatives.

Mr. Douglas in his report dissent from the views of the majority, for the reason that there is no satisfactory evidence that the Constitution framed at Lecompton is the act of the people of Kansas or embodies their will. That the only lawful election held on the adoption of the Constitution was that on the 4th of January last, which was in obedience to the law, passed by the territorial legislature, established by Congress, with full legislative power on all rightful subjects within the territory.

Messrs. Collamer and Wade submitted their views. They say that the territorial government of Kansas was never organized as provided in the organic act, but was usurped by a foreign force, and conquered, and subdued by arms, and that the minority has ever since been sustained by the general government in a end of being corrected. This has been done to establish slavery. The Lecompton Constitution is the result of these proceedings, and for Congress to consummate this protracted atrocity, and especially for such a purpose, is a violation of the fundamental principles of republican governments. In the late election the people have reclaimed their rights and the territorial government is for the first time now moving peaceably in its legislative sphere of promised freedom. The Lecompton Constitution and its adoption was concocted and executed to supercede and to triumph over justice. To admit it by Congress is but to give success to fraud and encouragement to iniquity. And torture over that people to such state officers as Calhoun shall hereafter proclaim, on such contingency as he shall determine. The long, mysterious, inexcusable indecision and reserve but encourages expectation in both parties, one of which is doomed to disappointment.

WASHINGTON, 18.

The Mexican correspondent of the Mobile Register discredits the report that Vidaurri, with a large force, was marching on the city. The Extraordinary says the representatives of the foreign powers have acknowledged the new government.

The Progressive contains the adresses of Comonfort to the nation. He charges his disaster the abandonment of the Convoy of San Francisco, and the spreading of alarm.

Nothing reliable is known as to further movements.

ST. LOUIS, 18.

The Kickapoo correspondent of the Republican says that on the night of the 6th a party headed by Chas. Lennaro burned the office of Mr. Boyd, lawyer, and Mr. Davis, physician, and destroyed all their property. Messrs. Boyd, Davis, Kelley, Laughlin, Lynch and others had fled to Missouri. Much excitement existed.

The committee of investigation into the election frauds had discharged their duty.

Report says that Governor Denver had issued a requisition upon the governments of three States for the person of Honcrepn.

The Legislature adjourned on the 13th.—Gov. Denver had failed to approve of the constitutional convention bill.

Parties arrived at Fort Scott say that men were moving about in that vicinity, but no fights were reported.

Ship News.

NEW YORK, 18.

The Sch. reported as seen off the Tavern Houses on Wednesday, full of water, and from whose rigging a man frozen to death was taken, is supposed to be the wrecking sch. B. Drummond, from the wreck of ship Clara Brookman and had on board a portion of that ship's cargo of iron. She is owned by Messrs. Herrelt and Bennett, wrecking agents, of this city.

The following comprised the persons belonging to her:—Capt. J. Fox, Michael Kerfiss, mate; W B Whelling, Augustus G McNeil, Daniel Watson, James Connor, W Dann and James Johnson Jr.

The Russian Corvette, Japannis, built by W A. Webb, was yesterday taken on the large balance dock, to be re-anchored and coppered.

HARTFORD, 18.

A statement appears in the N. Y. Tribune that the Metropolitan Bank of that city refuses the bills of the Hartford Co. Bank. They are redeemed at the Suffolk Bank, Boston, in the same manner as all the other Hartford Banks redeem their bills. None of them redeem their currency in New York. The Bank of Hartford County is prepared and ready to meet its liabilities.

LIQUOR BILL REPORTED.—In the Senate on Wednesday, Mr. Thomas, from the Joint Select Committee on so much of the Governor's Message as relates to the Liquor Law, made a report accompanied by a bill. The bill is substantially the law of 1853, with the authorization of distilleries, to manufacture liquors to be sold only to liquor agents in the State; but not for transportation.

ACCIDENT FROM BURNING FLUID.—Mr. Harlow Little, who keeps a boarding house in Portland, met with a serious accident from the careless use of burning fluid on Monday evening, while attempting to fill a lighted lamp in a closet. The contents of the lamp and the can, which contained about two quarts, ignited and exploded, setting fire to the closet, and severely burning Mr. Little. It was with great difficulty that the flames were extinguished and the house saved from destruction.

ANOTHER INCENDIARY FIRE.—A new barn, situated near the northerly end of Washington street, belonging to James Spear, was set on fire and burned to the ground, about half-past two o'clock yesterday morning. The barn was built upon the site of a building which was burnt by incendiaries about two months ago. Loss about $300: no insurance.—[Portland Advertiser.

ACCIDENT.—We learn that Mr. Hiram Johnson, formerly of this place but now residing in Edinboro, Pa., met with an accident on the 1st inst., by the bursting of a Jointer in the Shovel Handle Factory of Messrs. Burlingham, Twitchell & Clark. A piece of iron struck his arm between the wrist and elbow, scraping the flesh from the bone, for about six inches, and cutting one chord off. His head and hip were also badly bruised. He is, however, in a fair way of recovery.—Skowhegan Clarion.

DR. SANFORD'S

INVIGORATOR, OR LIVER REMEDY

IS AN ARTICLE THAT EVERY BODY needs who is not in a perfect state of health for the Liver is second only to the heart in our human economy and when that is deranged the whole animal machinery runs wrong I find a medicine particularly adapted to this disease has been the study of one of the proprietors in a large and extended practice for the past twenty years and the result of his experiment is the Invigorator as a never failing remedy when a medicine has any power to help and Liver Remedy it has no equal, as all testify who use it

A lady writing from Brooklyn says "Would that I could express in this short letter the value your Invigorator has been to me in relieving a large family of children for it has never failed to relieve all affections of the stomach bowels or attacks of worms If mothers once had this same dy placed within their reach who could tell how much a terrible and untold amount of agony might be saved

One of our prominent bankers says, Five or six years since I found myself running down with a low diffculty resorting to your Invigorator was greatly relieved and continuing for a season was entirely restored

A clerk, man called at our office the other day and said he had given a poor woman a bottle who was suffering very badly from Liver Complaint, and before she had taken the whole of it she was at work earning her bread for her family

A gentleman recently from the West says without Chicago he was attacked with a slow lingering fever that baffled the skill of physicians but the Invigorator cured him in a few days

One of our city merchants said while on a visit to Troy, a few days since he was attacked with bowel and stomach disorders so as to confine him to his room He sent to the drug store for a bottle of Invigorator took one dose which relieved him so that he was able to attend his business

An acquaintance whose business compells him to write most of the time says he became so weak as to be unable at times to hold his pen while at others sleep would overpower him, but the Invigorator cured him

A gentleman from Brooklyn called on us a week or two since looking but the shadow of a man with a sallow yellow pale and death like He had been for a long time suffering from Jaundice and Dyspepsia and unable to attend to his business. We saw him again to-day a changed man and to use his expression he has not seen the bottom of the first bottle and further adds it saved my life for I was fast going to a consumptive grave

Among the hundreds of Liver Remedies now offered to the public there are none we can so fully recommend as Dr Sanford's Invigorator or Liver Remedy so generally known throughout the Union This preparation is truly a Live Invigorator producing the most happy results on all who use it Almost innumerable certificates have been given of the great virtue of this medicine by those of the highest standing in society and it is without doubt the best preparation now before the public

LINCOLN'S

WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried it soon becomes hard, stiff, and cracks but when it is water proof this is remedied By the application of this preservative, it remains soft and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches and being often troubled with wet feet myself I was led to experimenting upon different compositions, and found it easy to make it water proof but at the same time extremely injurious to the leather At last by a chemical process I discovered a preparation which perfectly harmonizes with the natural properties with which leather is tanned It will not only make leather water proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time I can therefore in all confidence recommend it to the public as the best article in the market.

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber having purchased the right of making and selling *Davis Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc which has been received with so much favor and taken the first premiums wherever exhibited has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feeding of the bees—convenience for the removal of excrement, for the proper separation of the swarms and generally for the health and comfort of the workers

The boxes used in the Hive for storing honey are the best adapted ones in the market, holding from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights

Premium awarded to T C BUTLER, Derby Line, Vt., on MILLER'S CONDITION POWDERS, for Horses & Colts at the Vermont State Fair, held at Burlington, Vt, Sept. 9, 10, 11 and 12, 1856.

MILLER'S

CONDITION POWDERS

For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season with the changes of use and feed have a very great effect upon the blood and sinuous fluids of Horses At these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed and which if not attended to will result in the Yellow Water Heaves, Colts, &c, all of which will be prevented by giving one or two of these Powders, Spring or Fall and will at any time cure where any symptoms of disease appear, if used in time They purify the blood remove all inflammation and fever, loosen the skin clean the water, and invigorate the whole body, enabling the animal to do more work with the same food

The action of these powders is directly upon the secretive glands and therefore all diseases arising from or producing a bad state of the blood are speedily cured by them Also colds and surfeit of any kind are cured by one or two of these powders if given according to directions

In all cases of Horse Distemper they should be given at the first symptom to prevent fevers and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat

We the subscribers hereby certify that we have used *Miller's Condition Powders,* for Horses and Colts prepared by *T C Butler* Druggist Derby Line Vt. and think them the best Powders, for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers Stage Companies Stablemen and others, dealing in or keeping Horses and Colts

They will clean the Worms and Botts out of a Horse's stomach, and give him a good appetite for his food, and a good coat.

They are also good for the Heaves and for a Cough and they have been highly recommended for the cure of Worms and Bots in Colts

They clean the water loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed (signed by)

Timothy Winn—Mr Butler would say that Mr Winn is the proprietor of the Canada House and Stage office on Stanstead Plain and was for many years proprietor of the Derby Line House Derby Line Vt. where he raised the black colt called the Know Nothing, which was sold at $1800 at four years old

Erastus Lee—Mr Lee is one of the most extensive farmers in Eastern Canada and has raised some very valuable horses which he has sold at high prices This gentleman raised and sold the bay horse called Charley, which was afterwards sold for $1600 and taken to France He also raised and sold the horse called Bony which has been taken to California and is held at $15 000 Mr Lee keeps from 40 to 50 horses and colts, and makes great use of Miller's Condition Powders

Dr. McLANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

Two of the best Preparations of the Age.

They are not recommended as Universal Cure-alls, but simply for what their name purports.

The VERMIFUGE, for expelling Worms from the human system, has also been administered with the most satisfactory results to various animals subject to Worms.

The LIVER PILLS, for the cure of LIVER COMPLAINT, all BILIOUS DERANGEMENTS, SICK HEADACHE, &c.

Purchasers will please be particular to ask for Dr. C. McLane's Celebrated VERMIFUGE and LIVER PILLS, prepared by *Fleming Bros*

SOLE PROPRIETORS, Pittsburgh, Pa., and take no other, as there are various other preparations now before the public, purporting to be Vermifuge and Liver Pills. All others, in comparison with Dr. McLANE'S, are worthless.

The GENUINE McLane's Vermifuge and Liver Pills can now be had at all respectable Drug Stores.

The following remedies are offered to the public as the best most perfect which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known Other preparations do more or less good but this cures such dangerous complaints so quick and so surely as to prove an efficacy and a power to uproot disease beyond any thing which men have known before By removing the obstructions of the internal organs and stimulating them into healthy action they renew the fountains of life and vigor—health courses anew through the body and the sick man is well again. They are adapted to disease and disease only for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease and no more and children may take them with impunity If they are sick, they will cure them If they are well they will do them no harm

Give them to some patient who has been prostrated with bilious complaint see his bent up tottering form straighten with strength again see his long lost appetite return, see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores who stands or sits or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give him these PILLS and mark the effect see the scabs fall from his body, see the new fair skin that has grown under them, see the late leper that is clean Give them to him whose angry humors have planted rheumatism in his joints and bones move him and the screeches [illegible] he too has been soaked through every muscle of his body with liniments and salves [illegible] give him PILLS to purify his blood [illegible] [illegible] can reach but mark he walks [illegible] and now he walks alone [illegible] Give them to the lean sour haggard dyspeptic whose gnawing stomach [illegible] smile from his face and every muscle from his body. See his appetite return, and [illegible] the new man. See her that was [illegible] and loveliness blasted [illegible] wasting disease has [illegible] of digestion, [illegible] the [illegible] Her [illegible] gone Give her these PILLS to stimulate the vital principle into renewed vigor to cast out the obstructions, and infuse a new vitality into the blood. Now look again—the roses blossom on her cheek and where lately sorrow sat joy bursts from every feature See the sweet infant wasted with worms. Its wan sickly features tell you without disguise and painfully distinct that they are eating its life away. Its pinched up nose and ears and restless sleepings tell the dreadful truth in language which every mother knows Give it the PILLS in large doses to sweep these vile parasites from the body. Now turn again and see the ruddy bloom of childhood Is it nothing to do these things? Nay are they not the marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these distempers they are the easier cured Jaundice Costiveness Headache Sideache Heartburn Foul Stomach Nausea, Pain in the Bowels Flatulency Loss of Appetite King's Evil Neuralgia Gout and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly and under the counsel of a good Physician if you can if not take them judiciously by such advice as we give you and the distressing dangerous diseases they cure which afflict so many millions of the human race are cast out like the devils of old—they must burrow in the brutes and in the sea Price 25 cents per box—5 boxes for $1

Through a trial of many years and through every nation of civilized men AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind Cases of apparently settled consumption have been cured by it and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness to sound health and to the enjoyments of life by this all powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs The dry hacking cough the glassy eye and the pale thin features of him who was lately lusty and strong whisper to all but him CONSUMPTION He tries everything but the disease is gnawing at his vitals and shows its fatal symptoms more and more over all his frame He is taking the CHERRY PECTORAL now it has stopped his cough and made his breathing easy his sleep is sound at night his appetite returns and with it his strength The dart which pierced his side is broken Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here Nay it accomplishes more by prevention than cure The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza Croup Bronchitis Hoarseness Pleurisy Whooping Cough and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season Every family should have it by them and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock the darling lamb from many a home

Authenticated evidence of these facts with directions for the treatment of each complaint may be found in Ayer's American Almanac which we publish free for the benefit of all and in which may be found certificates from many eminent physicians and others, before whom they have been tested. Druggists and dealers in medicine generally have them for distribution gratis, and we supply them with our remedies prepared by Dr J C Ayer Practical and Analytical Chemist Lowell Mass
